1 授業の進め方

This course is designed to foster practical and natural English communication skills through a variety of interactive activities, including pair and group work, presentations, discussions, roleplays, debates, and commentating. The primary aim of this course is to enhance students' speaking and listening abilities by engaging them in authentic conversational contexts. Through the exploration of real-life situations, current affairs, and social media topics, students will develop practical communication skills and broaden their cultural knowledge.

Furthermore, the course will emphasize the importance of nonverbal communication, including gestures, body language, and cultural empathy. By understanding and incorporating these aspects of communication, students will be better equipped to interact effectively with individuals from diverse cultural backgrounds.

Overall, the "English Conversation Skills" course seeks to empower students with the necessary linguistic and cultural competencies to engage confidently and proficiently in English communication both within and beyond the classroom setting.

2 成績のつけ方

Course Assessment The course will be assessed by various oral assessments. Eg, presentations, discussions. The scores will be made up of these oral tests and the students activity and participation both in class and independently.
